# COMMERCIAL INTELLIGENCE

MONDAY EVENING, Nov. 2.

WITH nothing of an active character from home, we are beginning to feel the usual dulness incidental to the approach of the Devali, and to-day has been singularly quiet in all branches.

The London Stock Exchange quotations of Saturday, except for a decline of ⅛ in Rupee Paper, show no change. Consols remain at 100⅛.

Seeds and Wheat are unaltered.

The Liverpool Cotton market on Saturday closed quiet, with sales of only 6,000 bales, Spot prices unchanged, but Americans to arrive partially 1-64d. lower. In New York ready Cotton was ⅛ cent., futures 10 points lower at 9⅛ and 9·56 cents. per lb. respectively. Receipts at the ports to date give the following comparisons :—

| | 1885. | 1884. | 1883. |
|---|---|---|---|
| Saturday's receipts .. | 53,000 | 34,000 | 38,000 |
| Total since 1st Sept .. | 1,438,000 | 1,462,000 | 1,446,000 |

The drop in New York looks as if people were anticipating a considerable increase in the arrivals of Cotton at the ports. The crop is not being pushed forward with great rapidity, but private advices do not suggest any alterations in crop estimates, which ranging all the way from 6½ to 7 millions, mostly favour about 6¾ millions of bales.

The market here has been exceedingly dull to-day. Buyers continue to act with the utmost caution, and for export, with the exception of an occasional 100 bales of Bengals, there is nothing being done. Sellers now ask for new crops Rs. 211 for Broach, Rs. 183 for Omra, and Rs. 187 for Bhownugger to class good. F. G. F. Khandeish for February is said to have been done at Rs. 180 per candy.

WHEAT is very slack at the moment, lighter supplies and the holidays making sellers indifferent about pressing sales ; nor are shippers at all keen about operating unless at a material concession from present currencies.

SEEDS are dull at unchanged prices.

FREIGHTS are weakening down considerably. The s. s. Atrato is reported to have filled up for Antwerp, engaging the last 850 tons at 22s. 6d., and the speculators are said to have berthed the Cambodia for that port, engaging 2,500 tons at 23s. 3d. Current market rates are :—

| | Ready. | Forward. |
|---|---|---|
| Liverpool | 20 | 20 at 22-6 |
| London | 20 at 21-3 | 21-3 at 22-6 |
| Continent, Open Charter, Havre, Dunkirk, Antwerp | 23-9 | 22-6 at 25 |
| Marseilles | 22-6 | |
| Trieste-Venice | 25 at 2 ex | |

EXCHANGE :—The extent of business passing has been extremely limited, but the banks have been trying to make their road by buying rates a shade firmer, some of them declining to buy 3 months' Credits under 1s. 6 11-32d. For December delivery we hear business has been done at 1s. 6¾d., but they refuse to advance their forward drawing quotations. The following are closing quotations :—

| | |
|---|---|
| Bank Bills on demand | 1s. 6 5-32d. per rupee. |
| Do. Telegraphic | 1s. 6 ⅜d. " |
| Do. 3 months' sight | 1s. 6 ⅜d. " |
| Credits, 3 months' sight | 1s. 6 5-16d. to 11-32d " |
| France, 3 months' sight | 1·93½ to 1·94 " |

The Bank of Bombay return for the week ending on Saturday shows the following changes :—

| | | |
|---|---|---|
| Public Deposits at H. Office | Inc. | Rs. 4,11,276 |
| Branches | Inc. | " 40,719 |
| Other Deposits at H. Office | Dec. | " 11,77,559 |
| Government Securities | Inc. | " 1,849 |
| Loans | Dec. | " 32,350 |
| Bills Discounted | Dec. | " 5,02,798 |
| Cash with other Banks | Dec. | " 1,45,987 |
| Cash and Currency Notes | Dec. | " 6,83,195 |

These movements show a trifle more demand for money, but not to an extent to affect the open market at all.

GOVERNMENT PAPER has been quiet, with only a small business passing. Fours ready are down to Rs. 97⅞, forward to Rs. 97½. Fours-and-a-half are nominal at Rs. 99.

SHARES are quite devoid of animation. Spinning Mills are particularly quiet, and where altered at all, rather in favour of buyers. Port Cannings are down to Rs. 305. In Bombay Flour Mills business has been done at Rs. 670.

The Chamber of Commerce Crop and Weather reports issued to-day are subjoined. No rain is reported from any of the stations during the past three days, and except from parts of the Dholera districts we do not hear that more is wanted.

MR. E. W. WARD E-JONES, Solicitor, Bankipur, Patna, writes :—I have much pleasure in certifying to the value of your Spectacles, which I have used for more than five years now. Before I got your glasses I tried those of SEVERAL OTHER FIRMS, but my eyesight got worse by their use ; however, since I got your glasses from your Calcutta firm, five years and more ago, my sight has been preserved, as is evident from the fact that when I called at your firm in Bombay yesterday, the test my sight was subjected to, showed that I did not require glasses of greater power, than those I had been using for the past five years. I cannot speak too highly of the very careful test you put me through before fixing upon the glasses.

## THE CRISIS IN UPPER BURMAH.

(FROM OUR OWN CORRESPONDENT.)

RANGOON, Nov. 2.

The Oriental arrived yesterday with 113 of the Somerset Light Infantry and 123 Scots Fusiliers. The latter left for the frontier by mail-t ain last night amid loud cheers.

Mr. Hardinge, who has been orchid collecting in Bhamo, has returned safely to the British side. He says people above Mandalay seem to know all about the English preparations and are anxiously awaiting our arrival.

MADRAS, Nov. 2.

The weather here is very bad for military operations. For the last sixteen hours the troops in camp have been exposed to heavy rain with an occasional fierce wind. Shipping operations have been impracticable all day to-day.

Half a dozen steamers, including the two transports, are lying off the harbour, waiting for better weather before entering.

General Prendergast and staff, with the Hampshire Regiment, attended a valedictory service at St. Mary's Church, Fort St. George. Yesterday the Archdeacon preached an appropriate sermon.

The right wing of 23rd M. I. arrived this morning; the left wing arrives to-morrow morning.

Two hundred bullocks from Secunderabad and Bangalore arrived yesterday.

A number of medical subordinates are arriving daily.

Sergeant Doran, master tailor of the Hampshire Regiment, was found dead at his tent door this morning. An inquest was held this evening.

## THE VICEROY AT DELHI.

### LAYING THE FOUNDATION-STONE OF A NEW HOSPITAL.

(FROM OUR OWN CORRESPONDENT.)

DELHI, Nov. 2.

The Viceroy laid the foundation-stone of a new hospital at noon to-day. The Countess of Dufferin, Lady Helen Blackwood, Miss Thynne, and the whole personal staff were present. There was also a large assembly of the general public.

The Committee presented an address to the effect that Delhi had always maintained the lead in Eastern science, particularly in medicine, and was frequently the centre of the visits of learned travellers. In 1803 British physicians found great competition in the ancient Greek system of medicine practised here; so that before the Mutiny European medical science had made little progress. After the meeting a civil hospital was established with a Government grant of Rs. 1,000 and contributions from wealthy citizens. In 1874 an addition was made and improvements effected, since which time European medical science had steadily increased and flourished. Delhi had become the terminus of three important railway systems, trade had extended, and the citizens had acquired more of Western civilization. At present there was more demand for European than Oriental medical treatment. In anticipation of the Countess of Dufferin's scheme for the extension of medical aid to women in India, the two missions at Delhi had established a hospital and training school for native nurses, at the head of which were ladies. These had done much excellent work. Notwithstanding the aid thus furnished from extraneous sources, the advantages of a large and commodious hospital, capable of accommodating a large number of patients, and possessing ample space for operating and dressing rooms, and male and female wards, had been recognized. Dr. Ross, Civil Surgeon, Delhi, identified himself with the project. Colonel Parry Nesbit helped him, and the Lieutenant-Governor accorded healthy sympathy by contributing Rs. 7,500 from provincial funds. Both the Marquis and Marchioness of Ripon gave separate donations, while the aggregate sum of Rs. 75,000 had been contributed by natives. Foremost among the subscribers was Rai Mela Ram, of Lahore, whose donation was Rs. 24,000, while Lala Ram Kishendas and two other wealthy bankers of Delhi gave Rs. 5,000 each. The deputation asked the Viceroy's permission to call it the Dufferin Hospital, in honour not only of His Excellency, but also of the Countess of Dufferin, who has inaugurated in India such a beneficent scheme as extending medical aid to females. The address concluded with a request that provision should be made from the Countess of Dufferin's fund for securing and maintaining the services of a qualified lady to take exclusive charge of the female ward. The missions do a great deal for the women of the city, yet many prefer medical advice without the necessity of any association with a religion not their own.

His Excellency replying said.—I can assure you it gives me the very greatest pleasure to have had an opportunity of participating in the ceremonial of to-day. I am always glad to evince by every means in my power, my deep sympathy with all enterprise conducive to improving the sanitary condition of the people of India, the prevention and cure of disease, and the mitigation of human suffering. I am especially touched by your kind thought in suggesting that my name should be connected with so notable an institution as that the foundation of which I am about to lay. I am glad to see that you have referred in becoming terms to the well-known excellence of local native physicians of this place in former days; nor should it ever be forgotten how great is the debt of gratitude which the sciences in Europe, and especially the science of medicine, owes to the East. It was the Arabic literature that preserved intact the fruit of the world's earlier experience and research during those dark ages which almost submerged and obliterated for a time the intellectual achievements of the classic nations. But the centre of gravity of all human excellence, whether in the fields of art or science, is perpetually shifting. Yesterday it was here; to-day it is in Europe; to-morrow it may move still further West. But wherever it may be, thanks to the rapidity of modern communication, its results are soon universally disseminated, and become the property of all. The past history of India is a sufficient guarantee that the seed we are now sowing will fall on fertile soil, and be certain, I trust, to bear the most beneficent fruit. That this hospital may prove a source of relief to thousands, but also a successful witness to the true principles of medical science, is my earnest hope; and most heartily do I congratulate its founders and promoters upon the successful issue of their labours, and this day's auspicious inauguration. (Cheers.)

His Excellency then performed the ceremony with a silver trowel of Delhi workmanship.

On his return to Ludlow Castle three Mahomedans rushed up to the Viceregal carriage. The Viceroy perceiving that they were about to attack, ordered the police not to interfere, and asked what they wanted. They presented petitions. The Viceroy asked them to send their petitions to the Private Secretary, explaining at the same time that they were wrong to behave as they had done.

His Excellency leaves to-night for Ulwar, where he arrives at 9 o'clock to-morrow morning. The departure will be private.

## THE FARTHER EAST.

(FROM OUR OWN CORRESPONDENT.)

COLOMBO, Nov. 2.

News from Hongkong states that a serious collision has occurred, in which a Dutch steamer sank a British steamer, the Glenfruin, laden with tea from Foochow. The cargo has been seriously damaged.

The Formosa trade is reviving, and tea exports are improving.

Frequent important Imperial Councils are being held between the Empress and her chief ministers at Pekin. Resolutions have been adopted providing for large and thorough reforms in the administration of internal affairs and the defence of the Empire. The Government will be more centralized, destroying the power of provincial viceroys and mandarins. An Admiralty Board has been formed, and active steps are being taken for the defence of the Siberian frontier. Many powerful Krupp guns have been despatched to Manchuria with a German officer and engineers to fortify the entire line of country.

Accounts from Johore regarding gold and tin rmining, and tea and coffee, are encouraging. The Johore Tea Planting Company is extending operations. Important mining concessions have been made to Messrs. Jardine and Co.

An International Exhibition on a grand scale takes place in Japan in 1890.

A startling case of piracy has occurred within seventy miles of Hongkong on board the steamer Grey hound in midday. Thirty Chinese passengers rose against the officers, firing on all, and killed the captain, wounded the chief and second officers and engineer, and compelled the latter to make steam towards Macao. After looting the vessel they left in the Chinese junks which came alongside, taking away all valuables. The steamer returned to Hongkong. A British gunboat, with detectives, left for Macao, where one of the pirates was arrested. The wounded officers are recovering.

CAPTAIN HODGKINSON, of the North Lancashire Regiment, now stationed at Quetta, has been appointed Adjutant of the Bombay Volunteers, in succession to Captain Pryor, who has resigned.

THE Vehar and Tulsi lakes contained 57'60 ft. and 47'70 ft. respectively on the 26th inst., against 58·80ft. and 50·90ft. on the corresponding day of last year.

THE *Englishman* frequently displays astonishing ignorance in matters which ought to come within the range of everybody's knowledge. The proverbial schoolboy knows that a Khoja is not a Parsee, yet we find the Calcutta mentor descanting in the following ludicrously absurd manner on the published record of a well-known Khoja's travels in Australia:—

The Parsi community of India have long been noted for their energy and "push," for their keen commercial instincts, and for their broad liberality. While scrupulously retaining the ancient faith of their remote ancestors, they have all over India accommodated themselves to the march of progress, and in Bombay as well as elsewhere in India their presence is familiar in the commercial world as household words. Commerce, not literature, is the direction in which their energies are mainly directed. Nevertheless it need occasion no surprise to find a Parsi gentleman recording in fluent and idiomatic English the impressions of his tour in Australia, and those who read Mr. Fazulbhoy Visram's little book will find ample evidence of keen observation and shrewd remark on the main events of his tour.

THERE seems to be neither rhyme nor reason in the way in which appointments in the Madras Educational Department are made. Dr. Oppert, the principal of the Presidency College, for instance, has been superseded by Mr. Stuart, of Combaconum College, who is in the fourth departmental grade. Mr. Stuart is to act in the third class, while employed at the Presidency College, and he brings with him from Combaconum Mr. Srinivasa Aiyar, Second Assistant of the College, who is to act as Professor of Logic and Moral Philosophy at the Presidency College, *vice* Dr. Duncan, who acts as Director of Public Instruction during Mr. Grigg's absence on leave. The general effect of these changes will be that there will now be only three European professors at the Presidency College, while at its great rival, the Christian College, there are no less than ten European professors. It is admitted that Mr. Stuart's college career has been a distinguished one. But so much may be said of those whom he has superseded; but on the other hand he had no administrative experience until he came to India three years ago. The *Madras Mail* remarks:—"By way of tempering the wind of its prejudice to the shorn lambs of the Educational Department, the Government has arranged that so far as pay and status are concerned, Mr. Stuart will supersede nobody; but this sop is too paltry to silence the outcry that the aggrieved officials will probably feel they owe it to themselves to make. It takes the heart out of men to be leapt over by a comparative youngster who, as far as they can see, has not established a claim equal to their own on the consideration of the Government. The many officers whom this invidious and unprecedented selection has gratuitously aggrieved have traditional, if not also covenanted, rights which the Government cannot, perhaps, over-ride with impunity."

A PRIVATE correspondent from Bradford gives an amusing account of a little incident which occurred during Lord Ripon's recent visit to that town:—"The Bradford swells did not, as I heard some one say, know 'what ailed them' to have a live lord in their midst, and their speeches were a kind of play on the words 'noble lord.' One worthy divine commenced his remarks with 'Mr. Chairman, Lord ——,' but on occasions, remembering that Lord Ripon was the name of the only peer present, paused, looked confused, recovered himself, and went on with his speech as if nothing had happened."

THE quantity of tea exported from China and Japan to Great Britain from the commencement of the season to the 13th of October was 111,931,200 lbs., as compared with 110,693,381 lbs., during the corresponding period of last year. The exports to the United States and Canada during the same period were 50,329,889 lbs., as against 50,276,915 lbs.

AT a recent meeting at Maidstone, it was stated that the Queen had invested one million in ground rents. The attention of Her Majesty's private secretary was called to this statement, and the following letter has been received by Major Ross, one of the members for the borough:

"Aix-les-Bains, Sept. 18, 1885.

"My dear Ross,—There is no foundation for the statement that the Queen has purchased ground in the City of London. You may make any use you please of this above contradiction. The Queen has bought nothing and possesses nothing in the City of London. She has invested no money in ground rents, and she does not possess a million to invest. If not of course, solely to 'the Queen' as an individual. 'The Crown' is another matter. The Crown lands are, for the time being, in the hands of the Commissioners of Woods and Forests, for the benefit of the nation, and their proceedings are annually reported to Parliament. I have not got the Blue Book here. A reference to it would show if any of the woods and forests was invested in ground rents. I should think this was most improbable. At any rate, none of the Queen's own money is so, or has ever been so, invested.—Yours very truly, Henry Ponsonby."

WRITING to the chairman of the Liberal party in Maidstone upon the subject, Mr. John Hollingworth, Turkey Court, Maidstone, having observed that the subject of an address delivered by Major Hume was "Who Holds the Purse-strings?" says:

"I pass over the bold assertion that Her Majesty draws £486,000 a year from the people, though the statement has gone the round of the Financial Reform Almanack—vide pages 118-122—would have furnished him with the real facts. Mr. Barker, in the course of the subsequent discussion, stated that he had that day heard in the City that Her Majesty had lately invested £1,000,000 in the purchase of ground-rents in the City of London, and this was greeted with shouts of 'Shame!' The statement has gone the round of the press, and, feeling sure that you are as anxious as I am that the approaching election should be conducted on principles of fair play, I have to ask you that, as the leader of the Liberal party in the borough, you will assist me in giving as wide a circulation to the denial of this misstatement as the original report has already received."

IN discussing the probable consequences of the French elections, the *Morning Post*, after describing the position of the Conservatives, holds that, "however great and unforeseen the results of their next triumphs may be, they cannot aspire to become a governing majority. Their presence in the Chamber implies, so far, nothing more than a protest against Republican misrule. Royalist and Bonapartist electors have no doubt exhibited an extraordinary amount of discipline before the urns. But the unity of action which has rendered the Conservative victories possible, could not be expected to extend to Royalist and Bonapartist deputies in a programme of Government. In the eventuality of the elections resulting in a complete victory for the Conservatives—which is far from probable—M. Grévy will find it as difficult to unite Bonapartists and Royalists in the Palais Bourbon, as he must find it difficult to reconcile the two factions of the Republican party."

M. CHARLES LULLIER, a lieutenant in the French navy, who once had the reputation of being a competent officer, is disgusted with his country. He was sentenced to death by the first Versailles court-martial presided over by Colonel Merlin. The extreme punishment was awarded to him, while some dozen fellow-prisoners were only transported, because as an officer his offence in presuming to take command of a Communal army could not be condoned. He argued with Colonel Merlin at great length and with considerable ingenuity as to the reasonableness of his enterprise. The amnesty restored him to his country. He is incurably what Englishmen call wrong-headed, the French a *mauvais coucheur*, and the Americans "cuss." As a candidate for Marseilles he comes out at the bottom of the poll. Thereupon he has written a letter to the United States Consul saying that he is sick of his country, which is only fit for wretches, and he desires to be enrolled as a free citizen of the Great Republic.

A GENERAL meeting of the Liverpool Geographical Society has been held to hear the report of the explorers, Capello and Ivens, on their journey across Africa. The Royal Family, the members of the Diplomatic Body, and the *élite* of Lisbon society were present. On the platform was a large map showing the route traversed by the explorers. In the course of their address, MM. Capello and Ivens showed that the Cubango was a tributary of the Zambesi, and also pointed out the true course of the Capondo and the Upper Zambesi, which were wrongly indicated in former maps. Forty miles above Bangweolo there is a marshy tract and also two lakes, one of the same name to the north, and the other called Lake Bemba to the south of the spot where Livingstone died, and of the Muchinga mountains. MM. Capello and Ivens further discovered that the Luapula is the original tributary of the Lualaba River. The natives of the Upper Zambesi complained of the action of the Boers, and of the whites in the north, at the time of the hoisting of the flag of the expedition. The president of the society delivered a long speech, in the course of which he alluded to the colonial policy of Portugal, his remarks being received with the greatest enthusiasm. The King afterwards, amid loud applause, presented medals to the explorers in recognition of their services.

INFORMATION has reached Plymouth of the arrival at Madeira of the new gun-boat Conquest, which was recently reported to have foundered while proceeding to the Pacific station. The Conquest left Plymouth on the 9th ult. in very unfavourable weather, and for some days made very little progress. About eight o'clock on the evening of the third day she was struck by a squall, which carried away the foretopmast, staysail, and, in rapid succession, topsails and courses were blown to rags, while the ship herself laboured heavily, and for some time became unmanageable. Five sails were blown away. Orders were at once given to get up steam and to lower the screw, the latter by no means an easy task in such a sea, and with the ship beyond control. But it was soon accomplished, and in about an hour and a half the engines were working, and the ship was once more in hand. During the squall two men were injured. The Conquest arrived at Madeira on the 24th ult., and left two days later for her destination.

The medical officers, subordinates, attendants of the Army Hospital Native Corps, for both field and general hospitals, will be provided equally from the three Presidencies. Two hundred Lushai dandies and authorized proportion of bearers will also be provided.

## THE FOREST COMMISSION.

THE Forest Commission held its first sitting yesterday in the Collector's office at Thanna, Mr. G. W. Vidal, C.S., District Magistrate of Thanna, presiding. The following members of the Commission were present:—Rao Saheb Ramchandar Trimbak Acharia, Mr. R. C. Wroughton, Mr. E. C. Ozanne, and Rao Bahadoor Yeshwant Moreshwar Kelkar, Secretary. Some persons interested in forests were present.

The chairman, in opening the proceedings, enumerated the number of petitions that had been received from various districts, and said they made a grand total of 595 memorials. There were 19 memorials received from Ahmednuggur, 2 from Canara, 151 Colaba, 1 Nassik, 23 Poona, 4 Satara, 4 Sholapore, and 391 from various villages of Thanna. The chairman then asked if any of the native gentlemen present, or the representatives of any association, wished to bring forward any evidence.

Mr. Chintamon Saccaram Karandikar, on behalf of himself and another gentleman, enquired in what manner the Commission were going to proceed with the evidence,—whether they would proceed according to the rules of the civil courts, or adopt some other procedure. He wanted certain records from the Government Secretariat and from the office of the Collector of Thanna, and from that of the Forest Department. The complaints had been divided into three parts, the first of which dealt with the history of forest rights from the year 1749 to 1878, when the Forest Act came into operation. The records which he had referred to were required for the purpose of proving these rights. Failing the production of the original documents, he said he would produce and put in the copies which were in his possession. But before he did that, he would ask the chairman to issue notices to the Government for the production of those records.

The chairman said the speaker must apply to Government direct for any documents which he might require. As to the procedure to be adopted at the Commission, the chairman said, the Commission would have nothing whatever to do with the Civil Code. The object of the Commission was to get all the information they could bearing on the issues that were to be tried.

After devoting some time to arranging the preliminaries, the chairman said the Commission would be prepared to hear whatever evidence the Thanna Association had to bring forward from the 10th December or thereabouts. The exact date would be settled hereafter. It was hoped that by Christmas or the first week in January they would be able to complete the whole of that portion of the evidence. Then, from the 15th January, it was proposed to take whatever evidence might be presented to them by Messrs. Karandikar and Phadke. They hoped to finish this evidence by the end of January or the beginning of February, and then towards the middle of February, or, perhaps, the beginning of March, they should be free to take up the petitions from Colaba. Beyond that, of course, it was at present impossible to make a forecast of their programme. Regarding the official witnesses, such as Mr. Mackenzie, Mr. Crawley-Boevey, and other gentlemen, they would be called after all the private witnesses furnished by the memorialists had been examined. The chairman added that the Commission would not sit on all the following day to decide what statistical evidence they should collect from the various districts.

A letter from Messrs. Byramjee Jeejeebhoy, C.S.I., Ahmedbhoy Hubbibhoy, and Venayek Pandurung and another, owners of villages in Salsette, was read, asking when they would be required to give evidence, and requesting ten days' previous notice. A further letter from them stated that their grievances were as regards sections 35, 36, and 37 of Chapter XI. of the Forest Act, which laid down a protracted and lingering process when their lands were required for purposes mentioned in the said Chapter. As regards the rules framed under section 41 of the Act, they said they should not be made applicable to their villages, as the enforcement of the rules imposed duties or taxes on the produce of their villages which were in direct violation of the terms and covenants embodied in the deeds of indentures made between themselves and the Government.

The Commission resolved to request these landowners to submit a memorial stating what grievances they suffered from, after which it would be decided whether it would be necessary for them to give evidence.

The Commission then adjourned.

REPORTED THEFT.—A woman named Sarah has reported to the police that during her absence her house, in the Native Town, was robbed of gold ornaments of the value of four hundred rupees. She suspects two of her servants, a man and a woman, whom she had left in charge of the house.

LECTURE.—Baboo Jogindra Natha Tarka Chudamani, M.A. of the Calcutta Asiatic Society, and Honorary, Sanscrit Lecturer, Beadon Park, will deliver a public lecture in English to-day at 5 p. m. at the Bombay Arya Samaj Building in Girgaum behind the Girgaum Police Court, Kakudwady street. Subject "Victory to the Vedas." The public are invited to attend.

ATTEMPTED SUICIDE.—Dondee Ramjee, a woman suffering from epileptic fits, tried to commit suicide yesterday by taking opium. She was a great sufferer and was weary of her life. Her husband, when he came home from work, found her in an unconscious state, and removed her to the J. J. Hospital, where the necessary steps were taken, and she is now in a fair way to recovery.

FIRE AT TARDEO.—A fire broke out in a number of huts at Tardeo yesterday evening at about six o'clock. The Byculla fire-engine, under Inspector Whitaker, and Superintendent Smith and other police officers, was soon at the scene. The other police stations were informed of the fire through the telephone, but before the police officers arrived the fire was got under by the inmates. It has not been ascertained how the fire originated. The damage to property was very small, and there was no injury to life.

LOST PROPERTY.—Gholar Rowkurn, residing at Peepal-wady, has reported that on Sunday he dropped from his pocket a purse containing 17 tolas of gold, somewhere about the Marwarree-bazar.—Shivram Balmchund, has also reported that on the same day he forgetfully left a currency note for Rs. 50 and five notes for Rs. 10 each at the shop of one Mudden Gopal, and was unable to find them when he returned.

DEATH FROM NATURAL CAUSES.—A coroner's inquest was held yesterday at the Morgue, on the body of Babajee Ramjee, aged 25 years. Deceased was a cook, and lived at Gunbowder Lane. He frequently complained of pains in his chest and difficulty of breathing. Yesterday morning he was found lying in the passage of his house in an unconscious state in a fit, and died almost immediately. The jury found that death had resulted from angina pectoris.

FRAUDULENT POSSESSION OF PROPERTY.—Rama Krishna and Abdool Raymon Abdool Cader, two noted characters, were yesterday convicted by Mr. Dosabhoy Framjee—the first accused of having in his possession a silver ornament, valued at Rs. 10-4, and the second with having in his possession a copper vessel, the presumption being that both articles were the product of felonious raids on the public. They were each sentenced to three months' rigorous imprisonment.

THE RECENT FIRE IN POONA.—We hear that Mr. Propert, Commissioner, C. D., has taken a very serious view of the conduct of the persons whose duty it was to be present and render all assistance in their power required on such occasions. The District Magistrate has been deputed to make full inquiries into the matter. Notice has also been taken of the disgraceful condition into which the City Municipal fire-engines were suffered to fall, as also of the absence on the occasion of the responsible Municipal officers.—*Deccan Herald.*

## MEETINGS OF PUBLIC COMPANIES.

### THE BOMBAY MECHANICS' BUILDING COMPANY.

THE annual ordinary general meeting of this company was held yesterday evening at the branch office in Hummum-street. Mr. Sorabjee Shapurjee Bengalee presiding. The following report was submitted to the meeting:—

The directors beg to submit to the shareholders the accompanying audited balance sheet and revenue account for the company's financial year ending 31st July, 1885. From November, 1884, the rents for quarters in the building were slightly raised all round for new tenants. The experiment has proved a success in regard to the upper floors, but the ground-floor apartments, not yielding the enhanced rates, are being let out again at their former rent. This alteration, though not yet generally applied, shows a material increase in the amount of rents realised over the previous year. About one-sixth of the building was unoccupied during the period under report, chiefly the ground-floor rooms, for reason abovenamed. At the present time there are only four sets vacant. Shortly after the last general meeting your directors completed the negociations with Government for the purchase of the freehold of the land at Byculla, and paid over the required sum (Rs. 22,402) in April last, by means of a loan raised for that purpose under your sanction, and it only remains for the deed of conveyance to be executed. This delay necessarily involves postponement of the sale of the company's property, which may possibly be effected under favourable conditions within two or three months, the plans and other arrangements having been completed for that purpose. No rent is now payable to Government for the land, and all the restrictions in the leases are removed. The balance of profit shown is Rs. 6,119-8-10, out of which it is proposed to pay a dividend of Rs. 1-12-0 per share, or 3¾ per cent. on the paid up capital of the company, which will amount to Rs 5,710. The revenue account shows by comparison with the previous year an increase of nearly Rs. 1,000 in rents; and some heavy charges for road and other repairs and increased Municipal taxes have been incurred during the year. Transfer fees and interest accounts are almost the same as last year. The chairman, Mr. John Macfarlane, left for England some months ago, but will be in Bombay again very shortly. Mr. Newell Knox left Bombay in January, and Mr. Fred. King, having returned, was enabled to resume his seat on the board. Mr. Damoderdas Tapidas was asked to fill one of the vacancies and accepted office, which the shareholders will be requested to confirm, and it is the intention of the Board to request Mr. John Macfarlane, after his arrival from England in a few days, to rejoin the Board in order to fill up the vacancy caused by the departure from Bombay of Mr. C. A. Beyts. The appointment of an auditor for the current year will also have to be made. Mr. Chart, the company's auditor, having to leave Bombay lately for change, Mr. Hilliier, who had fulfilled the same duties previously, succeeded him.

Resolutions were passed adopting the report, declaring a dividend of Rs. 1-12, confirming the appointment of Mr. Damoderdas Tapidas in place of Mr. John Macfarlane, and appointing Mr. Dwarkadas Oodhowjee auditor of the company at Rs. 25 for each quarterly audit. The meeting ended with a vote of thanks to the chairman.

### THE NATIONAL SPINNING AND WEAVING COMPANY.

THE eleventh ordinary general meeting of shareholders of the company was held yesterday at the company's mill premises, Soparee Baug, Parel. Mr. Nusserwanjee Manockjee Petit, chairman of the board of directors, presided. Mr. Jehangir Hormusjee, of the secretaries and agents' firm, read the following report of the directors:—

The directors beg to submit their annual report of the company's operations from 1st July, 1884, to 30th June, 1885, together with the audited balance sheet and profit and loss account, which has been already circulated, for the same period. They regret the result is very unfavourable, as the loss during the year is Rs. 1,32,312, but it is owing to several causes all coming on at one time, particularly when the trade was against the working of the company. Owing to the starting lately of several new mills, and the quality of yarn produced by them being superior, it was found difficult to compete with them. The prices of the company's yarn had theref

DR. J. COLLIS BROWNE'S CHLORODYNE.
THE ORIGINAL and ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous medulla, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

From Symes & Co., Pharmaceutical Chemists Medical Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 33 Great Russell-street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in all diarrhœa and Dysentery. Spasms, Cramps, Neuralagia, the Vomiting of Pregnancy, and as a general sedative, that has been contested under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its magic influence and unfailing power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's hemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the inventor of Chlorodyne; that the story of the defendant Freeman was in genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and limitation.

Sole Manufacturer—J. T. DAVENPORT,
Great Russel-street, Bloomsbury, London.

DR. DE ROOS'
CONCENTRATED GUTTÆ VITÆ OR VEGETABLE LIFE DROPS.

THE alchemists of old spent years in endeavouring to find out a means of transmuting the baser metals into gold, but in vain. It was, however, reserved for a physician of the 19th Century to make a far more valuable discovery in occult science—the receipt of deep research into the arcana of Nature's mysteries—which is here offered to the world; and the pleasing results of a quarter of a century, during which time this wonderful medicine has been tried in every quarter of the globe, all corroborate the most sanguine of the inventor's hopes. Thousands of voluntary testimonials from grateful patients, testify to the fact that from this remarkable tonic alone, new life has been imparted to numbers of debilitated individuals; and it is not too much to say that hundreds of persons are at the present day living in full enjoyment of their mental and bodily powers—in thorough good health—who previously were confirmed hypochondriacs, had been given up by the faculty as incurable, and left to drag out the remainder of their existence a misery to themselves, and a constant anxiety to their friends.

This great life-revivifying medicine gives vitality and strength to the most shattered constitutions. It not only stimulates the system but purifies the blood, and promotes a healthy circulation of the fluids, thus imparting strength and tone to the nerves, enlivening and invigorating both body and mind. It greatly improves the appetite and restores the digestive powers, whilst for dyspeptic persons it is unrivalled. Those who (from long residence in hot climates) suffer from languor and relaxation, as also all persons going to the East or West Indies, should provide themselves with this important article of health.

Youth and age equally participate in the miraculous effects of this wondrous medicine, for whether the body be debilitated in early life, or sinking under the advance of years, a few doses will speedily afford assurance of returning health, by giving tone to the muscular and nervous systems, and bringing the organs of digestion into renovating the whole constitution. To the young it affords health, strength, and spirits, in place of lassitude and debility; while to the aged and infirm it immediately furnishes great relief and comfort, by gently and safely invigorating the whole corporeal frame; and although it is not put forward as imparting immortality, it will certainly gild the autumn of declining years, and, in all cases, calmly and serenely protract the close of life. For females of all ages, as also for delicate children who cannot take cod-liver oil, the Guttæ Vitæ will be found a great boon—being far superior in its strengthening properties, and at the same time so pleasant to the palate that it can hardly be called a medicine. To married persons, especially, this preparation will prove invaluable; giving strength and vigour in place of lassitude and incapacity for exertion. Price, 11s. and 33s. per bottle. The large size contains sufficient for four weeks.

PAINS IN THE BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, DISEASES OF THE KIDNEYS AND BLADDER, STRICTURES, &c.

DR. DE ROOS'
COMPOUND RENAL PILLS

Are justly celebrated all over the world as the most safe and speedy remedy for the above dangerous complaints. Discharges of any kind, Stone in the Bladder, and diseases of the Kidneys and Urinary Organs generally.

These celebrated Pills are an infallible remedy in the most obstinate cases. By their use alone many thousands are annually restored to health, and the agony of gout and rheumatism may now be considered as a voluntary affliction, as no one need suffer these excruciating torments if they will only have recourse to these Pills, which are confidently recommended by the proprietor as the only real specific; whilst for weaknesses across the loins, sandy or other deposit in the water, and in all cases of renal or urinary disturbance, they are, indeed, unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stone in the bladder, &c. Many complaints, long supposed to be nervous, arise solely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In packages of 1s, 1½d., 2s. 9d., 4s. 6d., 11s., and 33s.

THE MOST WONDERFUL PILLS IN THE WORLD.
DR. DE ROOS'
PILULÆ VITÆ OR VEGETABLE LIFE PILLS

which speedily, and almost magically, remove pain and disease of whatever nature, restore cheerfulness to the spirits, vigour to the body, and strengthen all the organs on which health and life depend: they do not contain a particle of mercury, but are purely vegetable; and for all affections of the liver, flatulency, bile, sick headache, dizziness, loss of appetite, lowness of spirits, the sensations of fulness at the pit of the stomach, pains between the shoulders, and the distress arising from indigestion and general debility they will be found of unexampled efficacy. They act mildly on the bowels without pain or griping, impart strength to the stomach, promote a healthy action of the liver, clear the skin, remove sallowness and pimples, purify the blood, brace the nerves, and marvellously invigorate the whole system. Price 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 33s. per box.

Every package of Dr. De Roos' preparations bears the British Government Stamp with the words—"WALTER DE ROOS, London," in White Letters on a Red Ground, by order of Her Majesty's Honourable Commissioners, without which none can possibly be genuine. DR. DE ROOS' undivided Medicines may be obtained of Messrs. TREACHER & Co., Limited, Bombay, Byculla and Poona; B. S. MADON & Co., Bombay; B. PHILLIPS & Co., Bombay & Poona; E. A. NEWMAN & Co., Bombay; BREMNER & Co., Madras; WEST & Co., Madras; WEST, Brigade Road, Bangalore; LYELL, Allahabad; B. G. MATHOOR, Medical Hall, Trivandrum; DOSS, Delhi; GOBIND and LALL SING, Delhi and Ajmere; BATHGATE & Co., Calcutta; SMITH, STANISTREET & Co., Calcutta; PEAKE AND KEOGH & Co., Lucknow; RAMJI MOOSOOJI & Co., Umballa; MAITLAND & Co., and HUDSON & Co., Colombo; and all the principal Merchants in India.

IMPORTANT CAUTION.—The public are respectfully informed that DR. DE ROOS' Pills are not sold in *loose* quantities, but only in packages, at the aforementioned prices. Intending purchasers are especially cautioned not to be deluded into buying *so-called* "Guttæ Vitæ" or "Renal Pills," but in every case specially to ask for "and accept no other, Lord DR. DE ROOS' "Guttæ Vitæ" or DR. DE ROOS' "Renal Pills."

IMPORTANT TO YOUNG MEN.—Debilitated and nervous sufferers should read the "Medical Advocate," by DR. DE ROOS, on secret abuses, nervous debility, depression of spirit and confirmed melancholy too frequently traceable to certain pernicious habits acquired in early life. Price one Rupee of any of the Agents or DR. DE ROOS Medicines.
